

TINKER PARK VEGETABLE GARDEN

| | |
|---|------------------------------|
| Asparagus 'Jersey Knight' | <i>Asparagus officinalis</i> |
| Garlic | <i>Allium sativum</i> |
| Horseradish 'Variegata' | <i>Amoracia rusticana</i> |
| Rhubarb 'Crimson Red', Canada Red', 'Heirloom Victoria' | <i>Rheum rhubarbarum</i> |
| Strawberry | <i>Fragaria x ananassa</i> |

This garden was formerly known as the Pumpkin Patch, however, because of deer and rabbit predation on pumpkin and squash plants, it evolved into the Vegetable Garden. This bed now features low maintenance perennial vegetables that are animal resistant – asparagus, rhubarb, and horseradish, as well as annual garlic.
