Signed: 

To whom it may concern,

I would like to submit my application for a Special Use Permit for cannabis retail at 3333 West Henrietta suite 43.

After my meeting with Steve Schultz regarding the issues with Suite 44 and it's proximity to the Trampoline park. I would like to provide an alternatives option, Suite 43 it is out of direct view line and further away from the trampoline park.

I met with the property management company to discuss the disrepair and hazardous conditions of the shopping center. They have agreed to fixed the potholes and lights in the parking lot, we are discussing landscaping improvements.

Suite 43 is an eyesore for the community and has been vacant for quite some time the property is in total disrepair inside and out. I have attached a design proposal for the exterior of the building which includes new landscaping in front of the building and the perimeter of the parking lot. Signage will be kept to a minimum and in compliance with state and local guidelines. The exterior of the building with not display art or signs alluding to the sales or use of cannabis.

Safety is my top priority for our staff, customers and minors. I have included an extensive safety plan which will include security cameras and flood lights covering all angles of the building inside and out with a dedicated security monitoring center inside the building. Security personnel will be present onsite at all times during operating hours. The parking lot will be patrolled and consumption on site or in the parking lot will not be tolerated. Security personnel will monitor all customers entering and exiting the building. ID scanning technology will be implemented at the door before entering the sales floor.

I feel my experience in the wine and liquor industry has provided me with a strong foundation to manage a successful cannabis retail store. Attention to detail in a controlled substance environment will be imperative to the ongoing success of cannabis industry especially keeping cannabis out of the hands of minors.

I am exited to be a women owned company in a very male dominated industry and look forward to working with the town and community to educate and ensure the safe sale and use of cannabis, which I feel can and will ensure industry success.

Thank you for your time and consideration.

Sincerely,

Nicola Doyle

Letter of intent

Products for sale

Products sold will be limited to prepackaged cannabis products and cannabis paraphernalia provided by state approved licensed local distributors. Sample packaged products will be on displayed on the sales floor secure in closed glass display cases for customer viewing and educational purposes. Viewing and sale of cannabis products will be limited to the secured sales area. All other cannabis products will be kept in secure storage safes. No Products will be viewable from outside the store.

Sales per person will not exceed 3 oz cannabis (flower) and 24g concentrated cannabis including edibles and concentrates.

Pricing

All products for sale inside the dispensary will include a clear sign with product description and price. Price will include item price including tax.

POS System

Consulate Cannabis maintains a current account with Dutchie, Dutchie POS is a robust, compliant, and fully-customizable point of sale system for cannabis retail. With built-in traceability, advanced reporting, integrated payment processing. This allows for seamless weekly inventory reports to OCM.

Staffing Key Roles

General manager is responsible for managing the core day-to-day running of the dispensary. This is the person responsible for submitting required reports and notifications to the Office. The manager must maintain the dispensary's staffing plan and update the plan within five business days of any change in an individual's employment status. The staffing plan will, include the name, contact information, and age of all workers involved in activities related to the sale of cannabis products.

Sales Manager will be responsible for overseeing Cashiers and packaging employees. This role involves making sure each member of staff is trained and knowledgeable in the day to day operating procedures set in place and available to answer questions that may arise helping in the day to day running of operations.

Security personnel will be employed full time during opening hours. Key responsibilities will include, staff and customer safety, exterior surveillance. Monitoring customer entering and exiting the building. Customer count.

Cashiers responsibilities include answering product related questions, customer education and engagement. Inputting orders into the system, collecting payment and checking each order before it leaves the store.

Packaging employees will work in the secure packaging room and will be responsible for handling cannabis related products, receiving orders through the POS system. The orders will be selected, checked, packaged and handed to cashier for final check.

Training, Health, and Safety

Each staff member will complete training and education within the first 30 days of hiring, which will be provided during paid working hours. Workers will be compensated for their time. This training will aim to ensure all employees

posses an adequate level of education and training required to do their job. Training manuals will be provided for each member of staff as a reference.

Our training manual will include workers guidelines, security, operating, and safety procedures put forth by OCM including, but not limited to:

The daily opening and closing procedures.

Security, customer admittance, and customer traffic-control procedures.

Ordering and point of sale procedures.

Product inventory intake procedures.

Product return and disposal procedures.

Emergency procedures.

Explanation of how workers will monitor for and prevent sales to customers where there is a risk to health or safety, underage or illegal sales of cannabis products, or any other criminal activity within the licensed premise.

Information about all types of cannabis products the dispensary sells.

Onset and duration of effects, if applicable; Method of administration.

Warnings for use

Tips for secure storage and proper disposal.

Customer privacy and confidentiality requirements.

Alcohol-free, drug-free, and smoke-free workplace policies.

History of cannabis use, prohibition, legalization.

Ensuring safe use of cannabis, including, but not limited to;

Cannabis physical effects on the human body.

Advice for recognizing signs of impairment.

Appropriate responses in the event of overconsumption.

Safe storage of cannabis products.

Explanation of required text on cannabis product labeling.

Risks of cannabis use and over-use, including cannabis use disorder.

Dependency Risks

Risks of operating any vehicle (including watercraft) under the influence; o Explanation of consumer education materials.

Overview of marketing and advertising prohibitions.

Prevention of sales to individuals under twenty-one, including, but not limited to: o How to check customer photo identification.

Spotting fraudulent identification.

Provisions for safely confiscating fraudulent identification.

Security and surveillance of licensed premises.

Emergency procedures.

Compliance with, and operation of, inventory tracking systems.

Relevant state and federal laws or regulations.

Permitted investigations or inspections of the premises.

License suspension, revocation and renewal.

Civil and criminal penalties.

Cannabis product waste disposal.

Practices for maintaining customer privacy and confidentiality.

Licensees must ensure that all workers have access to hand washing and toilet facilities on the licensed premises and must maintain such facilities in clean and sanitary condition, maintaining records of regular cleaning and sanitizing of such facilities. All personnel shall handle cannabis products in a sanitary manner, maintain adequate personal cleanliness, and wash and sanitize hands thoroughly in an adequate hand- washing area before starting work, after each visit to a restroom, after handling contaminated material, eating, or at any other time when hands may have become soiled or contaminated.

Customer Education

Our staff will be trained and available to answer most general product information. In addition we will provide iPads for customer interaction, these iPads will include a library of all cannabis related products sold in the store along with detailed information for each product including product strength, effect, dosage, method of administration and warning labels. Each sample on display will also include general product information. We will also schedule free in store educational events where customers can learn about products directly from licensed growers and distributors.

Secure Storage

Main storage vaults will be constructed with at least eight inches of concrete (or similar material) that has been reinforced with half-inch steel rods (or similar). Smaller storage locations will be made to allow for metal stud framing and barrier mesh, upon approval.

Disposal

Disposal of any cannabis product that are beyond the date of expiration, damaged, deteriorated, contaminated, or otherwise deemed not appropriate for sale. Will be stored in secure area in tamper proof drums set up in the safe room. All disposal of cannabis products will be conducted in compliance with all applicable state and local laws, rules, regulations, and guidance.

Security Plan

Security and safety is our top priority to ensure complete compliance, customer safety, product management and control we will work closely with ISG- Integrated Security Systems. ISG's has nearly a decade of experience

helping cannabis business with standards exceeding regulatory and commission requirements. Together we will create a security plan that exceeds state requirements.

This plan will include

High quality video camera system that covers all points of entry and exit, point of sale areas, safes and vaults, any areas where cannabis products maybe stores or displayed, and the entire parking lot.

This network of security cameras will have the capability to capture activity anywhere on the property. Also allows for analytics to identify people and vehicles and facial recognition technology. Which offers identification of anyone who enters, exits and or makes a purchase. Cameras will record continuously during hours of operation, and any time cannabis products are being handled. Outside of these times cameras will be motion activated.

Our security cameras will produce high quality, full color footage both live and recorded with time and date stamps. System will include a failure notification system that will include audio and texts. Will full battery backup incase of power outage. Footage will be backed up and preserved for a minimum of 90 days which is required by the state.

As part of our security plan ISG will install and maintain perimeter alarm that communicates with an internal designee and a third-party commercial central monitoring station when intrusion is detected. Exterior lighting will be added where necessary this will cover the building and parking lot ensuring maximum security visibility and safety.

A dedicated onsite locked surveillance room will be in operation with access limited to key members and security personnel. An active list will be kept and maintained of individuals who have access to surveillance room and security equipment.

Cashier stations will be equipped with discreet panic buttons used to alert security staff of potential issues.

During hours of operation full time onsite security personnel will be monitoring daily activities. This role will include providing staff and customer with onsite security protection, monitoring the parking lot and persons entering and exiting the building. Along with reviewing security footage.

ISG has chosen only commercial burglar alarm systems that meet or exceed all of the strictest standards or requirements established by Underwriters Laboratory (UL) and the National Institute of Standards and Technology (NIST) of the U.S.

The perimeter alarm communicates with an internal designee and a third-party commercial central monitoring station when intrusion is detected.

Build out security measures

Our build will be performed by a licensed contractor which will include advanced security measures to reinforce windows and doors Including but not limited to

Doors with pin-less hinges. Door assemblies will be maximum duty ANSI/SDI A250.8 LEVEL4 rated assemblies with handicapped accessible. Grade 1 lock set.

Exterior window system shall meet all requirements of current NYS energy conservation construction codes and include laminated glazing treatment with security film.

Walls and ceilings if needed will be framed with heavy mental studs and joists with 9 gage expanded metal mesh installed on the non secure side of framing with tamper proof fasteners. The expanded metal mesh shall be concealed by wall and ceiling finishes.

Exterior Signage

Outdoor signage will be permanently affixed to the building in the allocated signage space. Signs will clearly display the dispensary name in large font. The exterior of the building including the Signage will not include patterns or images alluding to cannabis paraphernalia. All signage will be in compliance with state and local guidelines which includes up to two signs, limited to 1600 square inches each.

Interior Signage

Store Interior signage will be in Compliance with the OCM requirements. Signs will post inside the store, in a manner to ensure the information is plainly visible to all customers this signs will include:

The licensee's retail dispensary license.

Hours of operation.

Notification that "Consuming cannabis is not allowed on this premises."

Notification that "Cannabis can impair concentration, coordination and judgment.

Do not operate a vehicle or machinery under the influence of cannabis.";

Notification that "Using cannabis, in any form, while you are pregnant or

chest/breastfeeding passes THC to your baby and may be harmful to your baby. There is no known safe amount of cannabis use during pregnancy or while chest/breastfeeding."; and

Notification, in bold and including capital letters as indicated, that "Adult-use cannabis products are for use only by persons 21 years and older. **KEEP OUT OF REACH OF CHILDREN AND PETS.**"

Re: *Special Use Permit for Consulate Cannabis LLC*

Dear Town Board,

We represent Ms. Nicola Doyle and Consulate Cannabis LLC (the “Applicant”) in its application for a special use permit to operate a retail cannabis dispensary on a parcel located at 3333 West Henrietta Road (the “Property”). The Applicant has applied for a license with the New York State Office of Cannabis Management, and, subject to receipt of that license, hopes to begin operation on the Property. We submit this letter of intent in support of the Applicant’s application and to request the Board’s attention during its upcoming Board meeting.

The Property is zoned B-1 Commercial and is situated in a Mixed-Use Redevelopment Area. Its parcel ID is 161.07-1-9 on the Henrietta tax map.

In accordance with Town Code §295-54, the Town Board should grant the Applicant’s application for the following reasons:

The operation of a cannabis retail dispensary at the Property is substantially consistent in its scale and character with those uses permitted and the existing built permitted uses in the B-1 District and neighborhood.

The operation of a cannabis retail dispensary at the Property aligns with the vision, goals, and recommendations of the Comprehensive Plan and other applicable plans and studies conducted by or on behalf of the Town. The Town’s 2019 Comprehensive Land Use Plan Update provides four additional goals and objectives for land use planning initiatives in the Town. Goal

1 specifically states that the Town’s goal is to “create opportunities for redevelopment and reuse of underutilized and vacant properties.” The operation of a cannabis retail dispensary at the Property will make use of the existing building and infrastructure and thus further the land use planning goals of the Town.

The operation of a cannabis retail dispensary at the Property aligns with the purpose, intent, and applicable design and development standards of the B-1 District. “It is the principal purpose of the B-1 and B-2 Commercial Districts to provide for business that meet the local day-to-day shopping and service needs of the residents and visitors that draw from neighborhood and regional populations in a manner that is compatible with surrounding uses and supports the desired visual character of the Town.” Town Code §295-13.1.

The operation of a cannabis retail dispensary at the Property will not be a nuisance in law or in fact. The Applicant will be applying for a license from the New York State Cannabis Control Board to operate a cannabis retail dispensary on the Property, which authorizes “the acquisition, possession, sale and delivery of cannabis from the licensed premises of the retail dispensary by such licensee to cannabis consumers.” MRTA §72(1). No nuisances, in law or in fact, such as noise, dust, smoke, refuse, poisonous substances, odors, fumes, noise, radiation, vibration, unsightliness, or similar conditions, will be created by operating a cannabis retail dispensary on the Property.

The operation of a cannabis retail dispensary at the Property will not create materials hazards or dangers to the public or to persons in the vicinity from fire, explosion, electricity, radiation, traffic congestion, crowds, parking of vehicles, or other causes. While operating a retail dispensary, the Applicant will not be utilizing any hazardous or dangerous chemicals or conducting any such activities. The on-site parking and vehicular traffic patterns are adequate to serve the proposed use and are in the public interest.

The operation of a retail cannabis dispensary at the Property will not create materially adverse impacts that cannot be adequately mitigated, such as to adversely impact natural resources or the environment, agriculture, community services, or other areas required to be addressed by the State Environmental Quality Review Act (SEQRA). Alterations to the existing building will not involve substantial changes to the existing structure or facility and is the reuse of a commercial structure permitted under the Town Zoning Code. *See* 6 NYCRR §617.5(c)(1), (18).

The physical conditions and characteristics of the Property are suitable for the proposed use considering site size, configuration, location, access, topography, vegetation, soils, and hydrology for effective stormwater management. The Property, including the existing building and infrastructure, are constructed and suitable for the operation of a cannabis retail dispensary. The applicant proposes no structural alterations to the exterior of the building.

There are adequate existing public infrastructure, utilities, community facilities, and emergency services to adequately serve the operation of a cannabis retail dispensary at the Property.

The operation of a cannabis retail dispensary at the Property will provide, maintain, or enhance, as necessary, safe and efficient vehicular traffic patterns, nonmotorized travel, and pedestrian circulation.

Lastly, the Applicant has applied for and expects to obtain the required State or other governmental approval necessary to operate a cannabis retail dispensary at the Property.

Should you have any questions or comments, please do not hesitate to contact us. Thank you for your time and attention to this matter, and we look forward to working with you and the Town.

With our utmost gratitude for your consideration of Consulate Cannabis LLC and Ms. Doyle, we remain,

Yours sincerely,

Stephanie R. Schuman
