4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Reduce stormwater pollution by educating the public on actions they can take to protect local water quality. The Stormwater Coalition's public education program includes the H2O Hero mass media campaign (TV, radio, print, billboard, and Facebook advertisements), social media, website, and direct engagement such as classroom and community presentations using a watershed model.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

In 2019, the Stormwater Coalition contracted with the Rochester Museum & Science Center (RMSC) to conduct stormwater public education including school and community presentations, rain barrel and rain garden classes, and storm drain marking (participated/supported 119 events). The Coalition contracted with Causewave to implement the H2O Hero campaign. In 2019, the campaign included a \$44,000 media buy (static and video Facebook Ads, billboards, and Google Word Ads) and \$147,000 in donated media (print, radio, TV). Twelve (12) new static and video digital Ads were developed for use on Facebook. The H2O Hero website received 29,358 visitors during this period and a project is underway to modernize the site architecture and make it mobile responsive. The Facebook page currently has 1000 followers. The

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Coalition will continue to support the H2O Hero campaign. A significant media buy including both digital and billboards is planned for the spring of 2019. Additional media space will be donated by Causewave and is likely to include print, TV, radio, and online. The campaign survey analysis report will be discussed and changes in messaging or tactics will be identified. The website enhancement project will be completed. The social media effort will continue with an emphasis on increasing reach and user engagement. The Coalition will continue to partner with the Rochester Museum & Science Center on the direct engagement portion of the public education program including presentations at schools and community events using the watershed model. Opportunities will be explored to place new H2O Hero educational signage at high traffic locations such as, Frontier Field, and the airport.

7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Promote public participation in and support for the Stormwater Coalition's efforts to reduce stormwater pollution including storm drain marking, rain barrels and rain gardens, and watershed clean ups.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

During this reporting period, public participation events included 11 rain barrel workshops, 7 rain garden classes, 3 storm drain marking events, and 1 watershed litter clean ups. In Henrietta a "Make A Difference Day" was held on October 26, 2019 which included a cleanup day for the Lehigh Valley Trail. The events were very well received with demand exceeding capacity for some workshops. Storm drain marking was identified as a high priority and heavily promoted through the website, social media, and a new volunteering flyer. In Henrietta, staff also installed 42 storm drain markers. Door hangers are placed at all homes in the marked neighborhoods to maximize the educational impact.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Stormwater Coalition will continue to promote rain barrel workshops, rain garden classes, storm drain marking, and watershed clean ups. During 2019, several new Facebook static and video Ads were developed to promote storm drain marking, litter clean ups, and riparian planting. These new Ads will be run during 2020 to increase public participation and should greatly increase awareness of the Coalition's volunteer opportunities. The Coalition continues to cultivate existing and new partnerships to advance its public participation program.

MS4 Annual Report Form

This report is being submitted for the reporting period ending March 9,

---	---	---	---	---	---	---	---	---

12. Evaluating Progress Toward Measurable Goals MCM 3

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Identify and eliminate illicit discharges to the stormwater system. Provide staff training and technical assistance with outfall inspections, track down, mapping, and source control. Target IDDE education efforts at high risk businesses and the public.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

During this reporting period, the County/Coalition assisted the member MS4s with two IDDE training sessions. The Coalition also assisted members with system mapping to include accurate storm sewer information and outfall data. The County/Coalition also assisted with monitoring 5 local streams for pollutants. Monroe County, in partnership with the US Geological Survey (USGS), monitors Irondequoit, Northrup, Black, Oatka, and Honeoye creeks for pollutants for total phosphorous and nitrogen, nitrate and nitrite, ortho phosphorous, chloride, ammonia and total suspended solids. This program documents the impact of stormwater runoff on local waterways. Monroe County also maintains a rain gage network of 17 sites that collect real time rain data that is made available to municipalities.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Coalition will continue to assist the MS4s with outfall inspections and developing system mapping. Monroe County has a contract to conduct GIS system mapping and development of a comprehensive county outfall map. ESRI Survey 123 will be used to conduct inspections and collect digital data. Outfall inspection/IDDE trainings are being planned to educate DPW workers on how to accurately inspect an outfall and how to follow up if issues are identified. Monroe County has added 1 more rain gage to the network to improve coverage. The IDDE/P2 Task Group will be working on developing outfall field sample kits, IDDE education for restaurant employees, and purchasing new products for members.

7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Minimize instances of sediment leaving construction sites to the maximum extent practicable. Provide annual erosion and sediment control training and technical assistance to municipal staff, contractors, developers, and consulting engineers. Municipality will inspect active construction sites, and the MS4 will respond to problems in a timely manner.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Stormwater Coalition of Monroe County contracts with the Monroe County Soil & Water Conservation District (SWCD) to provide construction technical assistance to the member MS4s. During this reporting period, the SWCD responded to 126 requests including construction site inspections, staff training, and permit assistance. SWCD provided 6 training sessions with 344 attendees at the 4-hour sediment and erosion training classes. SWCD also provided the Stormwater Management Training Series in which 50 municipal staff attended all classes. The Training Series classes are full day with each class covering a different technical topic. The Coalition's Construction Task Group followed up on it's gap analysis / workplan and developed written procedures for SWPPP reviews and acceptance and an improved qualified inspector construction site inspection form.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

During the next reporting cycle the Stormwater Coalition will continue to partner with the Soil & Water Conservation District to provide technical assistance and reduce stormwater pollution associated with construction activity.

6. Evaluating Progress Toward Measurable Goals MCM 5

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Minimize stormwater pollution through the use of effective post construction stormwater management practices. Provide annual training for municipal staff and the development community on stormwater management, green infrastructure, inspections, and maintenance. Inspect stormwater management practices at least once every three years and perform maintenance as needed.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Stormwater Coalition contracts with the Monroe County Soil & Water Conservation District (SWCD) to provide construction technical assistance to the MS4 members. Technical assistance includes SWPPP reviews and training on green infrastructure and inspecting stormwater management practices (SMPs). During this reporting period, the SWCD responded to 126 requests for technical assistance. 147 municipal staff, engineers, and construction site operators attended the Stormwater Management Training Series. The Coalition conducted pond inspections on behalf of the MS4s. The Coalition's Construction Task Group developed new SMP inspection forms using Arc GIS Survey123 application. The pond and bioretention forms are ready for use in the field using a mobile device. The Survey123 forms for other SMPs have been developed also. Monroe County received a grant from NYS to develop a GIS of SMPs Coalition-wide to facilitate inspections and maintenance. Significant progress was made during this reporting period. The Town of Henrietta continues to update its GIS system and green infrastructure inventory.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Stormwater Coalition will continue to partner with the SWCD to provide construction technical assistance. The Coalition's Construction Task Group will advance key projects including the completion and beta testing of GIS apps to inspect post construction SMPs. The Coalition-wide GIS of SMPs will be completed.

Minimum Control Measure 6. Stormwater Management for Municipal Operations

The information in this section is being reported (check one):

- On behalf of an individual MS4
- On behalf of a coalition

How many MS4s contributed to this report?

2	6
---	---

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Reduce stormwater pollution associated with municipal facilities and operations to the maximum extent possible. Train staff on stormwater pollution prevention. Provide assistance to residents on proper disposal of hazardous materials.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Coalition provided (3) P2 trainings for MS4 employees during this period. The Monroe County Ecopark is open twice weekly for residents to bring household hazardous waste, electronics, and recyclables. In addition, there were five (5) mobile hazardous waste collections in Greece, Webster, Perinton, Chili, and Hilton. In 2019, the Ecopark was used by 38,000 residents. 330 tons of household hazardous waste was collected and diverted as well as over 7,400 lbs of pharmaceutical waste. Monroe County created a new ecopark promotional video that includes the "only rain down the drain" stormwater messaging. Pet waste messaging was also an important part of the 2019 education program.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

During the next reporting cycle, the Stormwater Coalition will continue to utilize the IDDE/P2 Task Group to address areas of concern that were identified by the IDDE/P2 Survey and to work on projects addressing these needs. Pollution prevention assessments and trainings will be conducted.
