AMPED Energy Efficiency Project**

- Do you have an old furnace, an old refrigerator, a drafty house?
- Are you wondering what you can do to reduce your energy bills?
- Have you had a free energy audit of your home?
- Government rebates may be available for your home upgrades.
- Improved insulation, replacing your furnace with a heat pump, installing a heat pump water heater – these are just a few possibilities.
- Check out the AMPED website at <https://www.ampedproject.org/>
- Contact Brett Peters, area AMPED project Clean Energy Hub representative at 585-445-3239 or email brett@climategfl.org
